Experience

Gaza Sky Geeks

Member in GeeXelerator Program at Gaza Sky Geeks

April 2019 - Present

Palestinian Territory

Join with my team in GeeXelerator Program at Gaza Sky Geeks , so our idea is accepted to participate in this program

Palestine information and communications technology incubator (picti)

Back End Developer (ASP MVC 5) Trainee

January 2019 - Present

Gaza

Palestine Telecommunications (Paltel) Group

Android Developer Trainee

July 2018 - Present

Palestinian Territory

I meet a lot of people who work for companies like Facebook and Google. I have training on Version Control and Android development in advanced topics with complex Problem Solving techniques.

What has been accomplished:

- ▶ Worked on a large project and learned how to cooperate with others through Version Control like Git with GitHub
- ▶ Worked on a lot of problem solving
- ▶ Learned advanced topics in Android

Deepcoders

Network Trainee

July 2018 - August 2018 (2 months)

Gaza

The training consisted of all types of systems including Windows Server and Linux administration. We set up a network that connected and controlled a set of devices within the network.

We dealt with Windows Server, created users and controlling them; created a group of companies and a group of branches; connected them and gave each branch different privacy settings; shared files and controlled the branches through Windows Server. We also dealt with the Linux system and the addition and control of groups and people.

What has been accomplished :

- ▶ Worked on big project that manage a lot of users and make network between them, give privileges and share files using Windows Server
- ▶ The same thing worked on top but using Linux

Gaza Sky Geeks

Graduate from the Freelancer Academy

May 2018 - July 2018 (3 months)

Palestinian Territory

Join with Freelance Academy-4 at Gaza Sky Geeks

Education
